HENDRICKS COUNTY 4-H FAIR PREVIEW

On July 1, 2017, Hendricks Regional Health and Community Health Network started a new cardiology partnership to bring heart care to the next level in Hendricks and surrounding counties. As one of the first fully integrated cardiovascular systems in the country, Community Health Network offers an entire team of physicians and surgeons who are nationally recognized in heart care, and who share HRH’s patient-centered philosophy of medicine. Community and HRH have a long-standing relationship based on mutual values and respect, making Community the clear choice to join HRH in bringing advanced heart care to Central Indiana.

HRH and Community Health Network understand the importance of having the choice to stay in your own community for care. Keeping high-quality medical services close to home benefits recovery, and helps connect patients to their family and support system. We believe convenient access to the best healthcare possible is something every patient deserves, and that’s one key reason we are expanding our cardiovascular care.

Together, we will offer more local services and access to care including additional cardiac testing capabilities; growing our cardiac rehab program to the Brownsburg community; and expanding Cardiac Cath Lab hours. These additions will create a complete continuum of cardiovascular offerings and will help us better respond to the growing need in our community for heart care. Other goals for this partnership include 24/7/365 Cardiac Cath Lab coverage, quality enhancements and educational outreach as heart disease is the number one killer in our community.

Home is where your heart care should stay. Now it can.

COLLABORATING TO ENHANCE CARDIOVASCULAR CARE

On July 1, 2017, Hendricks Regional Health and Community Health Network started a new cardiology partnership to bring heart care to the next level in Hendricks and surrounding counties.

As one of the first fully integrated cardiovascular systems in the country, Community Health Network offers an entire team of physicians and surgeons who are nationally recognized in heart care, and who share HRH’s patient-centered philosophy of medicine. HENDRICKS COUNTY 4-H FAIR PREVIEW

HRH DAILY EVENTS

HRH SPONSOR DAY
Wednesday, July 19 | 1 P.M. - 7 P.M.
Kids and adults can see, touch, interact with and learn about dozens of cool vehicles at the Project Lifesaver Touch-A-Truck just west of the Expo Hall. While there, be sure to visit the Child Safety Fair in the Sponsor Pavilion to complete a passport for a chance to win a hot air balloon ride!

HRH PROJECT LIFESAVER 5K
Saturday, July 22 | 8 A.M.
Register now for the Project Lifesaver 5K and 1-Mile Family Run/Walk at the Hendricks County 4-H Fairgrounds to benefit Project Lifesaver of Hendricks County. Race entry includes parking admission to the Fair on event day. Register at RACEMAKER.ORG/EVENT/PROJECT-LIFESAVER-5K.

HRH OUTDOOR BOOTH
Sunday, July 16 - Friday, July 21 | 11 A.M. - 8 P.M.
HRH associates and volunteers will host family-friendly activities all week during the Fair featuring PLINKO to win cool prizes. Also, stay cool and hydrated at the HRH Cool Zone with our cooling misters. The HRH outdoor booth will be located near the NSSB Arena along the HRH Promenade.

HRH EXPO HALL BOOTH
Sunday, July 16 - Thursday, July 20 | 11 A.M. - 9 P.M.
Come inside the Expo Hall to shoot some hoops while listening more about our community challenge to reach 20,000 heart and lung scans by 2020. You will find the HRH indoor booth inside the Expo Hall.

HRH LACTATION STATION
Sunday, July 16 - Saturday, July 22 | 11 A.M. - 8 P.M.
Nursing mothers visiting the Fair can enjoy the comfort of the HRH Lactation Station located inside the Conference Center. This free service offers air-conditioning, privacy and water bottles, helping ensure young families enjoy their Fair outing.

HRH FIRST AID AND MEDICAL COVERAGE
Sunday, July 16 - Saturday, July 22 | 10 A.M. - 9 P.M.
The HRH Emergency Department will once again manage on-site first aid clinics and will patrol the Fairgrounds with their medical golf carts throughout the entire week of the Fair to ensure visitors a fun, safe environment. The first aid clinic will be located inside the Conference Center.

It’s time again for elephant ears, lemon shakes-ups and food-on-a-stick at the Hendricks County 4-H Fair! As has been the case in past years, Hendricks Regional Health associates are fired up to engage with the community at this year’s week-long event.

The lineup is jam-packed with fun for the entire family including last year’s big hit, the HRH PLINKO board! While several favorite events will return to the Fair, this year features a few first-timers. On HRH Sponsor Day, Wednesday, July 19, stop by the Touch-A-Truck Event and Child Safety Fair. The Project Lifesaver Touch-A-Truck will give children and adults the opportunity to see, touch, interact with, and learn about dozens of interesting and cool vehicles. There will be vehicles representing community emergency services, utilities, businesses, military and construction available. Kids of all ages and abilities can touch, discover and explore their favorite things on wheels.

The Child Safety Fair will be located in the Sponsor Pavilion along the promenade. Families and children will participate in a passport activity to collect signatures from different HRH department booths. All completed passports will be eligible to win a hot air balloon ride for four. These events are included in the price of admission to the Fair on Wednesday.

Also new this year is the Project Lifesaver 5K and 1-Mile Run/Walk on Saturday, July 22, beginning at 8 a.m. Funds raised from race registration will help purchase small radio transmitters for Project Lifesaver. This innovative program is a proactive response to protect individuals within the community who have a tendency to wander away from their caretakers due to cognitive disorders. These individuals can wear the small transmitters that allow them to be tracked and brought back home. The Project Lifesaver events at the Fair are a collaboration between HRH and the Washington Township-Avon Fire Department Register for the 5K and 1-Mile Run/Walk at RACEMAKER.ORG/EVENT/PROJECT-LIFESAVER-5K. Registration includes admission to the Fair on Saturday.

HRH will also have misting fans set up to help keep fairgoers cool and opportunities for people to win heart scan gift cards. These activities are ongoing throughout the Fair’s duration.

We can’t wait for you to get engaged in the festivities!
Chill & Grills are back! HRH is serving lunch to our local first responders to show thanks for all they do to make our community a great place to call home. We are honored to show our gratitude and respect to these men and women.

HRH associates are volunteering to help with building and grounds-related improvement projects at Cypress Manor. Projects include painting, landscaping and clean-up work. To sign up for a shift, visit HRHVOLUNTEER.COM.

Several HRH associates volunteered to march in the Brownsburg July 4th Parade alongside our float featuring the new Hendricks Regional Health Brownsburg Hospital. The float was a big hit with the crowd!

In May, HRH participated in an exercise to promote safe prom practices. The hospital took two student “victims” to demonstrate the dangers of underage drinking and driving in addition to texting while driving. The exercise was quite emotional for all involved.

Living The HENDRICKS Way

Congratualtions to Dr. Angi Thompson, DNP, FNP-C, CDE, BC-ADM, FAANP! In May, Angi completed her Doctorate of Nursing Practice. She was inducted as a fellow of the American Association of Nurse Practitioners (AANP) in June, joining a group of leaders whose scholarly contributions have led to meaningful improvements to healthcare and the Nurse Practitioner role.

Angi says the Fellow invitation is humbling. “I believe giving back to the profession and promoting excellence in all aspects of healthcare is everyone’s responsibility. To be recognized for these contributions is truly a blessing and an honor.”

Angi currently serves as the AANP’s Indiana State Representative and is the Medical Director for the Diabetes Youth Foundation of Indiana.

Brandee Wornhoff, MSN, RN, CNS-BC is one of 25 nursing professionals honored this year with the American Association of Critical-Care Nurses (AACN) Circle of Excellence Award. The award is given annually to outstanding nurses nationwide for achieving excellent outcomes in the care of acutely and critically ill patients and their families.

The AACN says Circle of Excellence recipients have demonstrated a relentless promotion of patient-driven excellence; communication skills; true collaboration; effective decision making; and meaningful recognition of others.

Wornhoff says she feels incredibly honored and also driven to fulfill such an honor. “Recipients are asked to prepare a legacy sentence to recite on stage while accepting the award. I focused on the fact that I do very little in isolation; I get to collaborate within an excellent circle of engaged associates. My sentence was ‘As part of a team, I influence evidence-based change and professional nursing practice to produce optimal outcomes.’”
