3 Easy Ways to Access Care in Your Wellness Center

Your employer Wellness Center is a convenient first stop when you or your family members need health care. It also provides the opportunity to take advantage of free preventative health services, medications, as well as care when you are sick. Through our shared model, you can go to five different Hendricks Regional Health Employer Wellness Center locations in Hendricks County. Even better, you are just a click or a call away!

If you haven't become an established patient in your employer Wellness Center, now's the time to get started. Here are three ways to access care:

1. Schedule online with MyChart at MYCHART.HENDRICKS.ORG.

Visit our patient portal, MyChart, to schedule online. You can also use MyChart to receive test results and send secure messages to your healthcare provider. For scheduling assistance, check out our tip sheet and other patient resources at HENDRICKS.ORG/WELLNESSCENTERS.

2. Call our dedicated concierge line at (317) 838-WELL (9355).

Our team is available to help you with scheduling over the phone or to assist with other questions about Wellness Center services. We are available Monday through Friday from 7 a.m. to 5 p.m. to assist you.

3. Work with your Wellness Center team to get your recurring maintenance medications for free.

Your Wellness Center offers a rich formulary of medications available at no cost to employees. To take advantage of this cost-savings opportunity, your first step is to schedule an appointment to become an established patient by calling (317) 838-WELL (9355) or scheduling at MYCHART.HENDRICKS.ORG.

NEW! Depending on your medication needs, you may be able to take advantage of our free, secure home delivery service through Crosswind Pharmacy. Contact Crosswinds Pharmacy Monday through Friday from 9 a.m. to 5 p.m. at (317) 288-9762 for questions.
